

Pocket plastic

Folding-chair with metal structure and polypropylene seat. Folding chair for the office.

Design Robby Cantarutti

Distilled tradition. Its name expresses its spirit: pocket-size. If necessary it fits into a very small space, even behind a door. A compact, functional and universal chair that knows how to be classy in its rationality. The design recalls the classic themes of folding chairs, to offer the essentials. It is ideal for corporate as well as for home. The frame is in painted or chromed steel, seat and back are made of polypropylene or multilayered ashwood.
