

Intex 26702 ex 28702 Prism Frame Above Ground Pool Round 305x76cm - 26702

Intex 26702 Prism Frame above ground round pool, easy to install, durable and enjoyable for everyone!

Intex 26702 above ground frame pool is easy to assemble and its strong tubular supporting steel structure makes it stable and well balanced. The PVC used for the swimming pool is made of three layers: an inner layer and an outer PVC layer, both dense and firm, and an intermediate layer of polyester. This is a pool meant to last in the years to provide you countless time of relax in your own garden.

The frame of this free standing Intex pool is made out of solid treated steel to eliminate the possibility of rust and corrosion.

ProduceShop is offering you this Intex 26702 round frame pool at a special price to guarantee you the best online price for a most sought after product in the field of above ground pools. Included in the package you will find an innovative filter pump with 1250 l/h capacity and a cartridge type "H" so that you will be ready to enjoy this pool as soon as you get it, without having to wait or purchase additional accessories.

Its fine design made it possible to easily and quickly install this above ground pool without the need for any tools, making it a well suited pool for everyone. The estimated time by Intex to assemble this pool is about 20 minutes, a tested operation with two persons.
