

Intex 26724 ex 26734 Prism Frame Round Above Ground Pool 457x107 cm - 26724

Intex 26724 ex 26734 Prism Frame Round Above Ground Pool (new model of Intex 26734), provided with high-tech and smart liner, structure of reinforced steel and covered with a anti-rust layer. Bottom sheet, cover sheet, ladder and filter pump included. Ideal solution to spend a nice day with your family or friends.

Intex 26724 Prism Frame pool is just like any other Prism Frame pool, that is a pool capable of satisfying any requirement, from pool parties with lots of friends and relatives to a quiet swim with your family or partner, thanks to a huge size which allows a higher number of people at the same time.

The refined Liner has been totally renewed and you will find a high-tech long-term product, that increases flexibility and resistance and won't suffer any corrosion and wear.

Intex 26724 Prism Frame pool is thicker and more solid than previous Prism models in order to enhance the resistance to water pression and allow a higher filling of the pool. The edges are round and blunted, so that also kids can play safe. The SUPER –TOUGH™ PVC Technology offers a 3-layer covering: inner and outer of thick and solid PVC and intermediate of polyester. The PVC used for ULTRA FRAME pools is ULTRA RESISTANT, 1.5 thicker than standard coverings.

Technical Characteristics Intex 26724 ex 26734 Prism Frame Above Ground Pool:
