

Scacchi 0372

Wardrobe with 3 sliding doors made of cherry wood with a fine checkerboard decoration. Inside: 5 adjustable shelves and 5 clothes rails. Accessories on request: chest of 3 drawers, tie rack, trouser rack, electronic safe, lifting hanging, mirror.

The simple geometric lines, with a crisscross pattern of the panels that highlights the natural grain of the wood, the values of purity and geometry of the decoration, characterize the wardrobes of the Scacchi collection. Discrete wardrobes, where the subtle texture of the frame marks the rhythm of the checkerboard surfaces, hiding the traditional door. A modular system of wardrobes for customized solutions.
