

## Prestige

Bed particularly original, characterized by rounded lines and linear, at the same time.

Wooden structure, polyurethane foam and acrylic fibers.

The protagonist is the head with three curved panels at different heights, with smooth coating and processing-stitching for a nice "capitonné effect".

Orthopedic bent beech strips and bed frame padded with slight curvature.

Removable cover only for the bed frame. Wooden legs covered with the same color of the bed-gloss chrome base.

Measures standard:

Width cm. 190 (rete 180x195)

Deep cm. 220

Height cm. 135

design: Arch. Augusto Mandelli
