

## Polished stainless steel stairs

Construction and installation of monumental stairway which connects three shop levels of luxury fashion boutique. YDF strictly cooperated with Architects to engineer the project details and afterwards fabricate and install in full autonomy the many complex architectural features that make up the intervention. The stairway is realized with custom formed treads in stone and polished stainless steel, riser panels in extra clear glass and leather handrails. A project of great value to demonstrate the variety of production and high quality finishes YDF offers.

We produce custom-made stairs. We work in coordination with the professionals of the client to supply and install unique items, for design, materials and finishes.
