

## Mixis Air R\_SB

Mixis Air derived from the collaboration between Crassevig and designer Mario Ferrarini to create a versatile seating concept. The shell is made of polypropylene with various base options including; wooden or metal legs, metal sled base, wooden trestle, aluminum trestle (with or without castors) and aluminum swivel base on castors. The collection is available in many colors as well as an upholstered seat option. Mixis Air is designed for contract use and is suited for many different applications and can be used in both indoor and outdoor spaces.

Design Mario Ferrarini
