

## Kabira 4L

Four legs steel frame chair, with upholstered shell or painted ash plywood shell, with or without fixed cushion.

Kabira Bay, famous cove of Ishigaki island and excellent observation point for gatherings of manta rays, gives its name to the new collection of Debi seats. The shapes of Kabira take their inspiration from the soft and charming floating of those large "flying fish" who dance above and below the sea surface. Kensaku Oshiro, like a true alchemist, translates the engaging and somewhat reconciling lines in a new and versatile chair for the contract market.
