

Simbia

SIMBIA is a range of luxury stackable chairs for banquet and meeting rooms; all these chairs are upholstered and available with or without arms. They are comfortable, ergonomic and, for this reason, they are also suitable for conference, meeting and other prestigious events.

The chairs stack 6 high, are available in four different shapes of backrest and, in the version without arms, in widths of 45cm or 50cm. They are classic with a contemporary design and are characterized by high quality and long life; they are entirely produced in Europe with european materials.

Their frame is in extruded aluminum tubing, smooth and asymmetrical to allow perfect stackability. Leg ends are provided with shaped glides in transparent plastic.

Padding is thick and is made of high density and high resilient fire-retardant foams; coverings are available in a wide range of easy-to-clean and abrasion resistant fire-retardant fabrics or vinyls, suitable for contract use.

As an option, all the chairs can be supplied with an hand hold in the upper part of the backrest to facilitate gripping and handling. In addition, the chairs can have their own aluminum back décor.

The armrests are provided with fully upholstered pads.

These elegant chairs can be dressed with chair covers in polyester fabrics, easy to wash and to maintain. These stacking chairs can be purchased together with our folding tables.

By virtue of all the aforesaid features, these luxury stackable chairs for banquet and meeting rooms are perfect for weddings, lunches and gala dinners, meetings and conferences; they are therefore recommended for hotel furnishing, restaurants, banquet halls and prestigious multipurpose halls.
