

Musa ceiling lamp

Ceiling lamp in forged iron and cut laser sheet. The fusion of decorative and contemporary gives life to a collection that bewitches to the feeling of smooth lightness. The elements in metal gold and chromium, together with the blown Murano glasses, craquelé, evoke in fact the shape of the feather, natural symbol of beauty and vanity. A creation of great class, which witnesses the instinctive passion for beauty.

Painted metal frame with gold and chromium bath parts and crackle blown glass diffusers. Bulbs included.

Available finishing: 04 Nickel lacquered.

Diffusers/accessories: 01 Glass.

design Michele Bellesso
