

## Coffee table 4973 Louis XVI style

Louis XVI classic style square coffee table. The wooden structure, finished in antique decapè with gold and bronze colors, supports the Calacatta Oro marble top. The choice of materials in our collection is not accidental, in fact a lot of time is dedicated to the selection of marble and fabric finishes to combine them optimally and achieve this pleasant result. The central table together with the round table are enclosed in the living room 4970 and can be accompanied by a TV stand and showcases, we find the same style also in the dining room to adapt it to spacious open spaces, creating a unique and comfortable environment.
