

Aalborg Line 02

A classic model of executive office chairs where the steel structure is enriched by sophisticated die-cast aluminium details. A light padding with horizontal stitching highlights the sober and modern style of these chairs.

FEATURES:

Structure: Chromed steel tube monocoque.

Handle: Chromed steel tube.

Padding: Flexible polyurethane foam.

Armrests: Fixed, polished aluminium.

Mechanism: Lock tilt or Knee tilt multi-block mechanism, gas-lift.

Base: Polished aluminium with castors.

Cantilever: Chromed steel tube.
