

## Grand Etoile Art. GE010

The decorations of the Grand Etoile Collection, like the frame of the mirror, are inspired by nature in a wonderful range of nuances, full of shapes and colors. Nuances which Cantiero proposes combined in a harmonious visual impact.

The Etoile Collection is inspired by Neoclassical and Biedermeier furniture, with striking yet sober decoration and influenced by the period's architecture. Every item of furniture offers numerous functional solutions, in perfect harmony with the gold and silver decorations, which are applied by hand using age-old Italian techniques. Strong colour contrast between the different parts of each item, and numerous types available. Precious woods and exposed grains give a strong contrast with the decorated sections.
