

## Elephant Trestle Base

Chair with 4-star base and polyurethane seat.

This Elephant Trestle Base chair is a visual representation of the evolution of office furniture. More than just an office chair, the stylish and elegant design and cool and comfortable leather or practical plastic lining is reminiscent of a modern armchair, remodelled for the world of work.

In neutral and fashionable beige, or pristine white, it will fit in with almost any colour scheme and is characterised by the fully swivelling pedestal base. This gorgeous chair will bring a homely yet still elegant feel to the modern office environment.
