

A.I.

A.I. it is the first design chair conceived by Artificial Intelligence who responded to the inputs received by the designer (Philippe Starck) and to the know-how from the company.

New eco friendly material from 100% recycled material

What is this new material and where does it come from?

This material is 100% recycled and comes from pure storage materials not contaminated by other materials. This material maintains the aesthetic quality and structural requirements; this project allows to revive unused industrial material.
