

Botero Mignon

The occasional tables comprised in the series are round, oval, square and rectangular, and their frames come in a range of finishes and colours to match the armchair. The tops are made from birch plywood, veneered on both sides with 0.9 mm HPL laminate (LAM) in a range of finishes or in lacquered MDF in a range of colours.

The new Botero Mignon series was created to complement the Botero series, adding colours and new elements to the family. With the arrival of Botero Mignon, the whole range is enhanced, in turn making it easier for designers to manage and optimize spaces thanks to the three seat sizes (Mignon armchair, Botero armchair and sofa) plus the pouf, and to the different shapes of the occasional tables (round, oval, rectangular and square). The versatility of the frames - available in a range of colours - supplements the diversified seating options and enables the Botero family to keep a playful and informal feel, and a positioning that works well in different environments.
