

Glassystem COM/GS21

Mural composition crystal satin.

It is the real revolution of furniture, both for commercial spaces for private homes, through the use of extra-clear tempered thick and finish fitting in polished chrome. The aesthetic impact is considerable: elegance, practicality, lightness, transparency, sound. All materials are 100% recyclable and at the request of the latest generation LED lighting with energy savings of 90%, no heat, and with a lifespan of over 50,000 hours. Production takes place in our factories using highly sophisticated and computerized.
