

Ellington

Ellington is a sofa bed with Lampolet mechanism, which guarantees high comfort both in terms of sitting and sleeping, thanks to the slatted base and the wide range of mattresses available. As far as design is concerned, Ellington features elegant leather or fabric details, which enrich and outline the armrests and the backrest. By simply rotating the backrest and without removing any cushions, Ellington transforms into a comfortable bed with a 12 cm thick and 200 cm long mattress. The removable cover is washable according to the chosen fabric. Ellington is available in a sofa and sofa bed version in all sizes in the catalog and can be completely dismantled for easy transport.
