

## Oliver

OLIVER, the new sofa bed with high backrest by Milano Bedding, designed by Alessandro Elli, features clean and distinctive lines. The backrest, with a trapezoidal shape, creates a unique decoration, supports the back while, once converted into a bed, it becomes a nice headboard; the design of the backrest takes up the shape of the armrests. The feet are covered with the same fabric as the sofa cover. OLIVER has been designed to convert, with a simple movement, into a real bed: the electro-welded mesh or wooden slats bed base and the 16/18 cm mattress are the other features for a regenerating rest. The cover is completely removable and washable according to the selected fabric. OLIVER is also available in the fixed version and it is completely dismantlable for easy transport
