

## Alexander Art. A82 - A83

The perfect match to the beige leather armchair and pouf of the same series, this splendid two or three-seater sofa will elevate the look of a living room with elegant sophistication. Resting on a solid ash wood frame with burnished brass details, the three seats are exquisitely padded of soft and comfortable polyurethane foam, and are upholstered of fine leather boasting a masterful pleated detail along the base of the sofa and on the top of the armrests.
