

## Bold Sofa

This family of products makes a bold statement with its generous cylindrical foot, connecting its structural perimeter while delimiting the objects that compose it. The distinctive metal rim that supports the seats, the tables, the cabinets, graphically encompasses the material with which they are made.

This is beautifully portrayed in the tables, where the marble tabletop matches with the legs in turned marble, or with the armchairs featuring leather seats and legs of the same color.

With the massive dimensions and the softness of the fittings, the materials are enhanced in their characteristics creating a sculptural effect and giving a distinct personality to each element of the collection.

### Structure

Die casted aluminum on the angular elements and extruded aluminum for the supporting structure on the perimeter. Internal structure in wood with metal supporting frame.

### Cushions

Back cushions in high grammage wadding with internal rubber insert. Seat cushions in polyurethane rubber of different densities.

### Covers

Back covers are completely removable for both fabric and leather versions.

### Base

The sofa, armchair and ottoman are based on the Bold family of castings. The Bold castings are made of Italian aluminum, die casted inhouse at Ghidini1961. Polished manually, and lacquered with a transparent finish to guarantee a long lasting durability.

Design Elisa Giovannoni
