

Frame Sofa

Stefano Giovannoni designs Frame for GHIDINI1961, a new collection composed of sofas, armchairs, dining and coffee tables, bookshelves and cabinets. Everything starts from a simple element: "the joint", which, combined with elegant rounded 45 degrees extrusions, creates an almost infinite family. The collection is characterized by organic junctions that – in their possible combinations – create minimal, compact and powerful structures. Frame is built starting from few elements that are able to create a large family with essential lines. Small tables and storage units are played with different materials, such as glass, wood and marble, while the sofa has a leather structure and fabric cushions.

Structure

Base in painted and strapped metal. Backrest in rubber in different densities with plywood panel.

Cushions

Back cushions in high grammage wadding with internal rubber insert. Seat cushions in polyurethane rubber of different densities. Side and back sides in natural cuoio leather.

Covers

All covers are completely removable for both fabric and leather versions.

Base

The sofa and armchair is based on the Frame family of castings. The frame castings are made of Italian alluminium, die casted in-house at Ghidini1961. Polished manually, and lacquered with transparent finish to guarantee a longlasting durability.
