

Máni Fabric ST-SL

Stackable h75 stool with chromed or painted rod steel frame for indoor use. The shell is upholstered with fireproof foams and selected and certified coverings for contract market. In addition to wools, trevira, velvet, faux leather and genuine leather proposed by Armet, it is possible to upholster Máni Fabric with fabrics or leathers supplied directly by the customer.

The polypropylene or upholstered shell can be combined with 16 different chair and stool bases available in steel, aluminum or solid ashwood. The strength of Máni system lies in the transversal use of the seats, suitable for indoor and outdoor hospitality and residential spaces, perfect also for the community sector thanks to professional accessories such as bench frames, hooking devices, armrests, tablets and trolleys for handling. Polypropylene shell can be refined with fixed cushion or countershell upholstered with the same finishes of Fabric version. In addition to wools, trevira, velvet, faux leather and genuine leather proposed by Armet, it is possible to upholster Máni Fabric with fabrics or leathers supplied directly by the customer. Cataphoresis treatment for outdoor use is available on request for Plastic 4L and plastic AR-4L.
