

Dena-S

Restaurant chair with frame and legs in beech wood natural or stained in the desired color. Seat and back are fully upholstered with fire retardant foam and covered in fabrics, vinyls or leathers available also in fireproof version; the chair can be covered also in customer's own material.

This chair is recommended for furnishing restaurants, hotels, cruise ships, bars and public spaces in general. Inside a hotel they can be placed in the restaurant or dining room, in the bar or in the bedroom. The chair is very comfortable, thanks to generous padding, is elegant and fits into any type of furniture thanks to its linear and essential design.

The production of these chairs is made entirely in Italy and is characterized by high quality, perfect functionality and long life.

Therefore they represent a valid solution for the furnishing of public places in the communities and in the hospitality market in general.
